## Sugarbird Gin ~ South African Fynbos Gin

### Sugarbird Gin Of Origin Western Cape South Africa

Founders of [League of Beers](#) who joined forces with [Yuppiechef](#) to grow South African Craft Beer further and teamed up with [Koi Strategy](#) are now [ginning it up!](#)

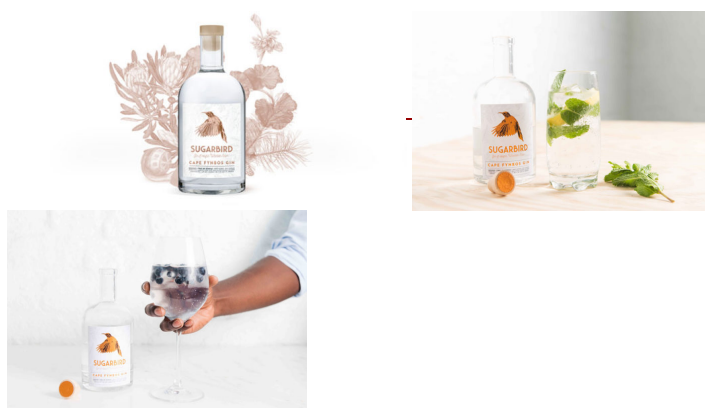

This innovative and passionate group of young and inspired South African entrepreneurs have a vision and a beautiful dream. They have done a lot of work to make it become a reality. They want to make a really great gin at a good price, get it out to every gin lover in South Africa and then take this proudly South African product to the World. **And they need our help...**

There was even an option of getting Ryan Gosling to personally deliver your Gin!

### Let us help them and Ubuntu\* supercharge this!

[Click here to see the Thundafund crowdfunding page.](#)

Sugarbird Gin is a floral gin inspired by the resurgence of traditional gin, their hope is to share a distinctively Cape Town, South Africa crafted product with the world. Thanks to rich wine traditions running through our heritage, South Africa has recently unearthed a world class distilling culture. Sugarbird gin takes flight off the back of this spirited craft trend, showcasing not only the local distilling mastery but the indigenous ingredients and creativity growing at the heart of this movement.

[Why Crowdfunding?](#)

*\*Ubuntu is a Nguni term meaning "humanity". It is often also translated as "humanity towards others", but is often used in a more philosophical sense to mean "the belief in a universal bond of sharing that connects all humanity". Loosely transcribed: Extending a helping hand in mutual respect of all as one.*

*This is sponsored content but it truly reflects Nosy Rosy's true opinion about crowdfunding and her respect and passion for this project.*
