Sugarbird Gin: more than just good gin

Time is running out for you to make history with [Sugarbird Gin](#). This is good gin, doing good.

How will you do that? Wait, let's start with at the top.

Sugarbird Gin

Origin: Cape Town

Volume: 500 ml

ABV: 43%

Made from fynbos and inspired by the Cape Sugarbird, this gin's flavours are enhanced by adding tonic.

Botanicals: extracts of juniper berries, rose geranium, orange peel, lemon peel, grapefruit peel, honey bush, Angelica root, rooibos, cardamom, Cape May (sourced from the slopes of Table Mountain), coriander and a tiny dash of cinnamon.

This is how you can make a difference, one cocktail at a time.

With the craft gin movement on the rise in South Africa, the team behind Sugarbird Gin saw an opportunity to empower local entrepreneurs.

For every 1 000 bottles sold, an aspiring entrepreneur (the group will be made up of 50% female entrepreneurs and 50% previously disadvantaged entrepreneurs) will receive a bursary to further develop their ideas and actually launch their business.

Sounds great, right? So get in on the action before the end of October 2017. Head over to their [crowdfunding page](#), make your pledge – R75 all the way up to R900 000 if you're feeling generous 😊

I haven't tried Sugarbird Gin myself – yet, and will update this post once I have. Leave a comment below if you've tasted it.
